## BASIC COMMUNITY PROFILE EXPLANATORY NOTES

### INTRODUCTION

1. The Basic Community Profile provides 32 tables containing key census characteristics of persons, families and dwellings for the following geographic levels: CD, SLA, LGA, CED, SED, Uc/L, SSD, SD, S. Dist., Postal Area, Suburb, Section of State, State, Australia. It is based on place of enumeration.

Family

2. Information was collected from the 1996 Census of Population and Housing.

Family income

3. Each table title in the Community Profile consists of two parts. The first part lists the variables included in the table. The second part describes the table population.

The  
Household

4. A glossary of terms and concepts used in the Community Profiles appears below.

**5. For more information on classifications and Census concepts see the 1996 Census Dictionary (Cat No. 2901.0).**

### GLOSSARY

Aboriginal and/or  
Torres Strait Islander  
Origin

6. The 1996 Census was the first census to allow a person's origin to be recorded as both Aboriginal and Torres Strait Islander; prior to this only one or the other could be recorded.

Household income

Commonwealth  
Electoral Divisions  
(CEDs)

7. Some CEDs cross State and Territory boundaries. The implication of this is that State totals derived from CEDs will not equal the official State to Nfd counts. Therefore State totals will not be provided for the BCP at CED level.

Employed full-time/  
part-time

8. Employed 'full-time' means that the person worked 35 hours or more in all jobs during the week prior to Census night. Employed 'part-time' means that the person worked less than 35 hours in all jobs during the week prior to Census night.

Overseas visitor

Employed full-time/  
part-time (cont'd)

9. For Census purposes, people who stated they were employed, but worked zero hours in the week prior to Census night have been coded 'employed part-time'.

Place of  
enumeration

10. A family is defined as two or more persons, one of whom is at least 15 years of age, who are related by blood, marriage (registered or de facto), adoption, step or fostering, and who are usually resident in the same household. Family tables include same sex couples.

11. Family income is the sum of the personal incomes of each resident family member aged 15 years and over. Family income is not applicable to non-family households such as group households or lone person households; or to people in non-private dwellings.

12. A household is defined as a group of two or more related or unrelated people who usually reside in the same dwelling, who regard themselves as a household, and who make common provision for food or other essentials for living; or a person living in a dwelling who makes provision for his/her own food and other essentials for living, without combining with any other person.

13. For Census purposes, the total number of households is equal to the total number of occupied private dwellings.

14. Household income is the sum of the personal incomes of each resident household member aged 15 years and over. If any household member did not state their income, or was temporarily absent, household income is not calculated. These households fall into the 'Partial income stated' category.

15. Nfd means 'not further defined'.

16. In the 1996 Census, overseas visitors were treated differently compared to previous censuses. In 1996, age, sex and registered marital status were the only person variables recorded for overseas visitors whereas in previous censuses, information on all topics at the person level was recorded. For further information please contact the ABS and request a copy of Census Fact Sheet 15.

17. The Census count, based on place of enumeration, is a count of the person who spent Census night in Australia. People are counted where they are on Census night, which may not be where they usually live.

## BASIC COMMUNITY PROFILE EXPLANATORY NOTES (cont'd)

Postal Area	18. A Postal Area of CD of Enumeration is formed by aggregating who collection districts (CDs) that fall within physical boundaries of a postcode on a best fit basis. As the name implies, the data are supplied on a place of enumeration basis. This series excludes non-mappable Australia Post postcodes e.g. post office box postcodes, some postcodes which are delivery routes which are also covered by other postcodes (a situation which often occurs in rural areas) and some postcodes which, because of the application of the 'best fit' principle, do not get a CD allocated to them. A listing of alternative postal area allocations is available from ABS offices.	DATA QUALITY (cont'd)	25. Cells containing small values are randomly adjusted to avoid releasing information about particular individuals, families or house. The effect of random adjustment is statistically insignificant.
		Random Adjustment	
		Respondent error	26. Processing procedures cannot detect or repair all errors made by persons in completing the form, therefore some may remain in final
		Undercount	27. Although the Census aims to count each person once, there are some people who are missed and others who are counted more than once. A post enumeration survey is conducted soon after the Census to measure the undercount.
	19. Some Postal Areas cover CDs in more than one State or Territory boundary. The implication of this is that State totals derived from Postal Areas will not equal the official State total counts. Therefore, State totals are not provided for the BCP at Postal Area level.	Household Income (HIND) and Family Income (FINF)	28. Due to operational limitations, the family/household income imputation methodology may result in an undercount of the number of families in the \$1,500 - \$1,999 range and a balancing overcount in the \$2,000 range. No other income ranges are affected. This may also affect the median income estimate if the median falls in either of these ranges.
Table population	20. Table population is a description of what the table is counting. For example, tables containing marital status usually have a table population of persons aged 15 years and over. It appears under the table title.		
Tenure type	21. In the 1996 Census, the number of categories has increased and now includes 'being purchased under a rent/buy scheme', 'being occupied rent free' and 'being occupied under a life tenure scheme'.		29. The calculation of median income is based on imputations made from the Survey of Income and Housing Costs, and as such is subject to sampling error. This is particularly evident if the median falls into the highest income range, where the quoted median is a proxy only and should be regarded with caution.
DATA QUALITY	22. The Census is subject to a number of inaccuracies resulting from errors by respondents or mistakes in collection or processing of the data. Some of these are overcome or 'repaired' by careful processing procedures and quality management of the processing itself. The effect of those that remain is generally slight, although it may be more important for small groups in the population. The main kinds of error to keep in mind are:		30. For explanation of these issues and the technical imputation of dollar ranges, please contact the ABS and request a copy of Census Fact Sheet 7 - Income Imputation.
Partial non-response	23. In some cases where an answer was not provided to a question an answer was imputed or derived (often from other information on the form). In other cases a 'not stated' code was allocated.	Usual Residence	31. A minor processing error has been identified in the variables Usual Residence Indicator 1 year ago (UAI1P) and Usual Residence Indicator 5 years ago (UAI5P). For further information on the nature and extent of the error, please contact the ABS and request a copy of Census Fact Sheet 7 - Income Imputation.
Processing error	24. While such errors can occur in any processing system, quality management is used to continuously improve the quality of processed data, and to identify and correct data of unacceptable quality.		32. Further information on data quality will be provided progressively in the 1996 Census Update and in the 1996 Census fact sheets and working papers.
